Chicago Lurie Garden

Lurie Garden is an award-winning masterpiece of botanical landscaping. Throughout the year, and for every season, native perennials and bulbs give the garden great diversity, creating a haven for wildlife, birds, and insects. Located in the southeast corner of Millennium Park, Lurie Garden is a peaceful oasis in the middle of the bustling downtown.

Chicago River boat tours

You can't visit the Chicago Riverwalk without getting out on the water. Generally running May through October, take your pick from a variety of river cruise options. Choose an elegant dinner cruise aboard a glass-enclosed vessel or hop onto an informative architecture cruise from Chicago Architecture Center River Cruise aboard Chicago's First Lady; Mercury, Chicago's Skyline Cruiseline, Shoreline Sightseeing, or Wendella Sightseeing to learn the fascinating history behind the city's soaring riverfront skyscrapers. A few more unique boat tour options include Island Party Hut Charters, Chicago Cycleboats, and the eco-conscious Chicago Electric Boat Company. Explore all Chicago boat tours to find the one for you.

Chicago's Museum Campus

Chicago's amazing Museum Campus houses three of the city's leading institutions all in one place. Spend a day exploring natural history and world cultures at Field Museum, underwater worlds at the Shedd Aquarium, and far-out galaxies at the Adler Planetarium — and all from a breathtaking lakefront vantage point. Afterward, continue your exploration at Museum Campus South.

Shedd Aquarium

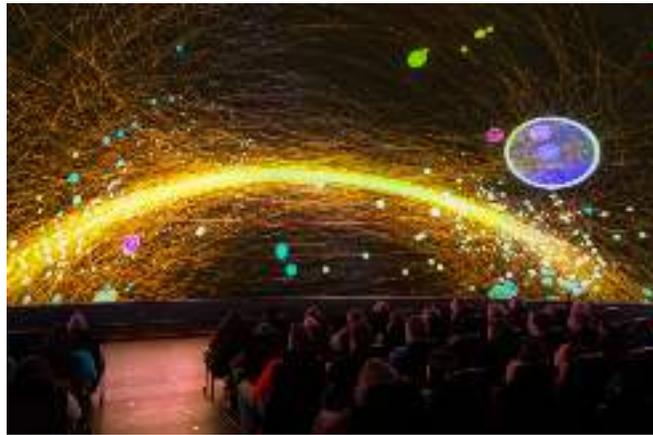

The Shedd Aquarium is home to more than 32,000 aquatic animals, some of which you can actually touch and interact with. But the stars of the show are the beluga whales and Pacific white-sided dolphins housed in the Shedd's stunning Abbott Oceanarium. Designed to mimic the coastal ecosystem of the Pacific Northwest, this exhibit is surrounded by rocky outcroppings and floor-to-ceiling windows that overlook the blue waters of Lake Michigan. This is where you'll see dolphins leaping and beluga whales showing off during aquatic shows.

Field Museum

Unlock the secrets of natural history at Field Museum. As you enter Stanley Field Hall you'll be greeted by Máximo the Titanosaurus, the largest dinosaur to ever walk the earth. Then head underground and explore the timeless mysteries of an Egyptian tomb at the Inside Ancient Egypt exhibit. Walk through the rooms of a 5,000-year-old tomb, discover fascinating hieroglyphs, see one of the largest collections of mummies in the United States, wander through an Egyptian marketplace, and visit a shrine to Bastet, the cat goddess.

Adler Planetarium

Explore infinity and beyond at the dazzling Adler Planetarium. Catch a show in the state-of-the-art theater, where you'll zoom into space to explore mysterious planets, swirling galaxies, and brilliant stars. Check out the Mission Moon exhibit, where you can launch a stomp rocket, get a peek inside the Gemini 12 spacecraft and experience America's first steps on the moon through the eyes of NASA astronaut Jim Lovell. Touch an actual moon rock and examine a meteorite that crashed to earth in the Our Solar System exhibit, while The Universe: A Walk Through Space and Time takes you on a journey from the universe's humble beginnings over 13.7 billion years ago to today.

Rosemont

Our event will take place at the beautiful Loews Chicago-O'Hare, strategically near O'Hare airport and a short L Train ride to downtown Chicago. With just a 30-minute train ride to downtown Chicago, 15-minute free shuttle to O'Hare airport or a few minute walk to the Rosemont/Parkway Entertainment District, we believe this venue is the ideal choice for our users to come network, learn and enjoy himself or herself at our 2025 MCG User Conference.
